“GIVE ME A PLACE TO STAND, AND I SHALL MOVE THE WORLD.”

– Archimedes
"I always take my Spartan flag with me and fly it wherever I go, spreading the Spartan love and showing my lifelong school spirit." Alex, ’13

Broad College of Business alumnus Alex Lee continues his world travels, inspired by MSU education abroad programs in the United Kingdom, Belgium, Luxembourg, and the Netherlands.
Michigan State University got its start more than 160 years ago when we pioneered a new kind of higher education that opened doors and expanded opportunities.

Today we continue to blaze trails with a spirit that runs deep inside students and faculty, driving us to work together, crossing disciplines and time zones to make a lasting impact.

Believing we are strong as one, but extraordinary together.

It’s not just what we do that makes us Spartans—but also why and how we do it.

It’s what’s inside.

It’s the will to think bigger, work harder, and never give up. Pushing ourselves to achieve our personal best, while pushing the boundaries of what’s possible to make a better world.

WE CALL IT SPARTAN
Amazing things happen here, and not by coincidence.

Spartans have perfected the art of pairing collaboration with unconventional thinking to create solutions that make a better tomorrow for everyone—like using transparent surfaces to harvest solar energy, cleaning up nuclear waste with microbes, and challenging assumptions to increase understanding of our world and each other.

Spartans have imagined all of these things, and then got to work making them a reality. What will you imagine?
- creating technology that enables skyscrapers to power cities
- exploring the brain benefits of reading literature
- teaching literacy through music education
- writing computer programs that evolve to solve problems
- building an app that allows the visually impaired to navigate their world
- using drones to make farms more productive
- being able to charge your cell phone as you walk
- starting global conversations through art
- detecting foodborne illnesses with your smartphone

LIKE NO OTHER

As Spartans, what we’re made of makes a difference. And we’re proud of what we’re passionate about. At MSU there’s room for everyone, and every interest.

1– **PAIGE DUREN** has been a Spartan fan for as long as she can remember. Now a freshman—and a cancer survivor—she’s tackling new challenges, like the Bachelor of Science in Nursing program. She still makes time for her beloved Spartan football team, who cheered her on through her cancer treatments, by working in the program’s office and helping out on game days.

2– **AMY FOUTY** Spartan Stadium turf manager Amy Fouty leads a team that provides the best-quality playing surface for student-athletes. Spartan Stadium was even named the top collegiate football field by the Sports Turf Managers Association in 2016.

3– **MALCOLM DAVIS** is a pre-med senior studying history, philosophy, and sociology of science. As a resident assistant on campus, Davis serves as a resource and role model for fellow students, encouraging Spartans to cultivate empathy and compassion—characteristics he’ll bring to his future career as a physician.

4– **JENIA POWE** is a freshman majoring in nutritional science. Her passion for food and health led her to join the Residential Initiative on the Study of the Environment, and she’s a regular volunteer at MSU’s urban farm in the Brody Neighborhood. As a Spartan, she’s proud to be part of a community that welcomes progressive and innovative thinkers.

5– **GEMMA REGUERA** MSU microbiologist Gemma Reguera and her team are known for discovering superpowers of microbes—from their ability to clean up nuclear waste to their instrumental role in harnessing energy from wastes and in biofuel production.

6– **ALEX RUCKER** is a senior studying experience architecture. Her creative spirit led her to pursue leadership roles in organizations like Women in Entrepreneurship at MSU. Inspired by the prospect of improving daily life through design, Rucker has traveled the world and pitched her startup at a competition in Paris.

7– **FLORENE MCGLOTHIAN-TAYLOR** is a 29-year veteran of the police force. She works to create an inclusive culture on campus in her role leading the MSU Police Department’s Inclusion and Anti-Bias Unit, which proactively addresses police and community-related issues associated with bias.

8– **PIOTR PASIK** After obtaining two undergraduate degrees from MSU, kinesiology graduate student Piotr Pasik traveled the world for his studies in the rehabilitation counseling program, exploring other cultures’ perceptions of disabilities. He stays active in the MSU Adaptive Sports and Recreation Club—a wheelchair sports program he established—and serves on the President’s Advisory Committee on Disability Issues at MSU.

9– **RANDOLPH RASCH** Dean of the College of Nursing, Randolph Rasch is a distinguished scholar and family nurse practitioner. Taking inspiration from Yoda and Florence Nightingale, he encourages the next generation of Spartan nurses to be adventurous problem solvers.

10– **KARL GUBE** Media Sandbox Director Karl Gube spent his career helping top news organizations tell rich stories with the help of infographics. Now he encourages students to develop critical thinking skills while incorporating elements of play in their creative work.

11– **EMILY STEFFKE** came to MSU without a clear plan, but found she could balance all of her interests on one campus. The junior majoring in neuroscience and English is a varsity cross-country and track athlete, conducts brain research in a lab, plays piano and sings as a music minor, and participates in service organizations.

12– **GREG STARK** is an electrical engineering senior and president and project manager of the MSU Solar Racing Team. The Honors College member has taken part in the building of a new solar race car from the wheels up and attended national competitions with his team, growing as an engineer at every turn.
From the moment you arrive on the MSU campus, you’ll have the opportunity to pursue distinctive experiences that will shape you as a person and provide you with knowledge and skill sets employers value.

MSU’s top-ranked programs, high-caliber opportunities, and inclusive, collaborative community enable students to create powerful, personalized paths and to compete with the best in the world.

ENTREPRENEURSHIP

Across campus and beyond, MSU’s expanding entrepreneurship opportunities—from business incubators and endowed funding sources to new academic programs and partnerships—are ensuring that Spartan undergraduates from all disciplines are prepared to think and solve problems creatively.

EDUCATION ABROAD

Studying theater in London, system science in Antarctica, or sustainable agriculture in Sri Lanka—these are just a few of the more than 275 education abroad programs MSU offers in more than 60 countries on all continents. Students who study abroad can look forward to forming lifelong friendships and broadening their worldview in unexpected ways.

UNDERGRADUATE RESEARCH

More than ever, our world demands creative thinkers and doers. Students who participate in undergraduate research become just that—gaining experience, building key skills, and working side by side with faculty. Choose from hundreds of individual and group research and creative activities or create your own independent project.

ANTHONY HATINGER, ’13
After graduating with a degree in religious studies and a minor in horticulture and sustainable agriculture and food systems, College of Arts and Letters alumnus Anthony Hatinger is putting his diverse interests and passion for food justice to work for the common good. Cofounder of Detroit Ento, a sustainable protein startup featured in National Geographic, he’s working to source locally grown insects to create food products that provide nutrition for a growing population.

RESIDENTIAL COLLEGES
Residential colleges offer the best of both worlds: a small-college environment at a Big Ten research university. Study topics like public policy, natural science, and the arts and humanities while living and learning alongside students with similar interests.

HONORS COLLEGE
The Honors College offers unparalleled academic freedom and flexibility. Students have access to challenging upper-level courses accompanied by a range of special programs, research projects alongside top faculty, international study options, cultural and social activities, and community service opportunities.
Students are part of the fabric of MSU. You’ll find support programs that help students before they arrive on campus and ensure success before and after graduation.

A NATIONAL LEADER IN ENTREPRENEURSHIP

The Princeton Review included MSU on its list of top 25 undergraduate entrepreneurship programs in the nation, cementing its position as an entrepreneurial hub and a leading institution for innovation.

JORDYN CASTOR, ’15

MSU alumna and Apple engineer Jordyn Castor is on a mission to develop accessible software for fellow persons with visual impairments. During her time at MSU, Castor was unstoppable, thanks in part to support from MSU’s Resource Center for Persons with Disabilities, which provided the latest assistive technology as well as braille textbooks. She earned a scholarship for a competitive internship on Wall Street and later interned at Apple, where she now works full time to bring meaningful digital experiences to all.
NEIGHBORHOODS
With five distinct Neighborhoods, living on campus puts you at the center of all MSU has to offer. Students can easily access academic resources—including advisers, tutors, and learning resource centers—as well as student engagement centers, classrooms, health clinics, dining halls, and more.

SERVICE-LEARNING
The Center for Service-Learning and Civic Engagement prepares students for lifelong civic and social responsibility in an increasingly diverse and complex global society. More than 32,000 students participated in community-engaged learning and service opportunities in 2017–18. Students benefit from improved academic skills and a sense of civic responsibility.

MICHIGAN,
AT THE HEART OF IT ALL

We understand the importance of a great location. And Michigan has many—from Great Lakes shorelines to big city skylines. And in the heart of lower mid-Michigan, you’ll find MSU located in East Lansing, a globally minded community that hums with activity and culture. Minutes from the capital city of Lansing, MSU is a car, bus, or train ride from other Michigan jewels like Detroit and Grand Rapids, and a few hours from Chicago.
