“I always take my Spartan flag with me and fly it wherever I go, spreading the Spartan love and showing my lifelong school spirit.” Alex, ’13

Broad College of Business alumnus Alex Lee continues his world travels, inspired by MSU education abroad programs in the United Kingdom, Belgium, Luxembourg, and the Netherlands.
Michigan State University got its start more than 160 years ago when we pioneered a new kind of higher education that opened doors and expanded opportunities.

Today, MSU is a place where you can find your path and your passion and a network of people who will support you along the way. And when you leave here, you will be ready to change the world.

Be part of Generation Will—the next generation of Spartans that will lead with courage, find meaningful solutions and put their unique talents to work for the common good.

JOIN US.
Amazing things happen here, and not by coincidence.

Spartans have perfected the art of pairing collaboration with unconventional thinking to create solutions that make a better tomorrow for everyone—like using transparent surfaces to harvest solar energy, cleaning up nuclear waste with microbes, and challenging assumptions to increase understanding of our world and each other.

Spartans have imagined all of these things, and then got to work making them a reality. What will you imagine?
- creating technology that enables skyscrapers to power cities
- being able to charge your cell phone as you walk
- exploring the brain benefits of reading literature
- writing computer programs that evolve to solve problems
- teaching literacy through music education
- building an app that allows the visually impaired to navigate their world
- using drones to make farms more productive

LIKE NO OTHER

As Spartans, what we’re made of makes a difference. And we’re proud of what we’re passionate about. At MSU, there’s room for everyone and every interest.

1– PAIGE DUREN has been a Spartan fan for as long as she can remember. Now a junior—and a cancer survivor—she’s tackling new challenges, like the Bachelor of Science in Nursing program. She still makes time for her beloved Spartan football team, who cheered her on through her cancer treatments, by working in the program’s office and helping out on game days.

2– MARCUS BINGHAM, JR. is a junior majoring in media and information. He is a forward on the men’s basketball team, and one of his proudest moments was being a part of the 2019 Final Four team. He is committed to giving back and helping people. As a first-generation college student, he encourages others to believe in their dreams and do something each and every day to work toward them.

3– DANNY CABALLERO is leading an effort to revolutionize how physics is taught at the college level. The associate professor helped create a student-first learning model that is attracting international attention while improving STEM courses for students at MSU.

4– JENIA Powe is a junior majoring in nutritional science. Her passion for food and health led her to join the Residential Initiative on the Study of the Environment, and she’s a regular volunteer at MSU’s urban farm in the Brody Neighborhood. As a Spartan, she’s proud to be part of a community that welcomes progressive and innovative thinkers.

5– GEMMA REGUERA is an MSU microbiologist and professor. She and her team are known for discovering superpowers of microbes—from their ability to clean up nuclear waste to their instrumental role in harnessing energy from wastes and in biofuel production.

6– GERI ALUMIT ZELDES creates Emmy-winning social justice documentaries, involving MSU students throughout the process so they can develop storytelling and investigative reporting skills. The journalism professor was named among the “100 Most Influential Filipina Women in the World.”

7– FLORENE MCGLOTHIAN-TAYLOR is a 31-year veteran of the police force. She works to create an inclusive culture on campus in her role leading the MSU Police Department’s Inclusion and Anti-Bias Unit, which proactively addresses police and community-related issues associated with bias.

8– PIOTR PASIK is an instructor in MSU’s department of kinesiology, teaching Wheelchair Sports. After obtaining three degrees from MSU, he traveled the world for his studies in the rehabilitation counseling program, exploring other cultures’ perceptions of disabilities.

9– RANDOLPH RASCH is the dean of the College of Nursing, a distinguished scholar and family nurse practitioner. Taking inspiration from Yoda and Florence Nightingale, he encourages the next generation of Spartan nurses to be adventurous problem solvers.

10– KIARA ZARATE is a junior, a child development major and a first generation college student from a migrant farmworker family. She works to bring awareness to the hard work of migrant and immigrant farmworkers and advocates for the importance of helping marginalized communities at MSU and beyond.

11– MADDY EISCHER is a senior in the Honors College with a double major in apparel and textile design and molecular genetics. Combining her two passions, fashion and science, she launched a successful mask-making business during the pandemic. She enjoys having the freedom and opportunities to explore her diverse interests at MSU.

12– MUNING SUN is a senior supply chain major who gets to mix business with her interest in science as the fundraising director of the Science Olympiad Club and treasurer of the Zoological Students Association. She’s also made tons of connections through campus jobs, from working in a dining hall to serving as a finance research assistant.
From the moment you arrive on the MSU campus, you’ll have the opportunity to pursue distinctive experiences that will shape you as a person and provide you with knowledge and skill sets employers value.

MSU’s top-ranked programs, high-caliber opportunities, and inclusive, collaborative community enable students to create powerful, personalized paths and to compete with the best in the world.

Across campus and beyond, MSU’s expanding entrepreneurship opportunities—from business incubators and endowed funding sources to new academic programs and partnerships—are ensuring that Spartan undergraduates from all disciplines are prepared to think and solve problems creatively.

BEYOND THE CLASSROOM

EDUCATION ABROAD

Studying theatre in London, system science in Antarctica, or sustainable agriculture in Sri Lanka—these are just a few of the more than 275 education abroad programs MSU offers in more than 60 countries on all continents. Students who study abroad can look forward to forming lifelong friendships and broadening their worldview in unexpected ways.

UNDERGRADUATE RESEARCH

More than ever, our world demands creative thinkers and doers. Students who participate in undergraduate research become just that—gaining experience, building key skills, and working side by side with faculty. Choose from hundreds of individual and group research and creative activities or create your own independent project.

RESIDENTIAL COLLEGES
Residential colleges offer the best of both worlds: a small college environment at a Big Ten research university. You can study topics like public policy, natural science, and the arts and humanities while living and learning alongside students with similar interests. MSU’s three degree-granting residential colleges are James Madison College, Lyman Briggs College, and the Residential College in the Arts and Humanities (RCAH).

HONORS COLLEGE
The Honors College offers unparalleled academic freedom and flexibility. Students have access to challenging upper-level courses accompanied by a range of special programs, research projects alongside top faculty, international study options, cultural and social activities, and community service opportunities.

ANTHONY HATINGER, ’13
After graduating with a degree in religious studies and a minor in horticulture and sustainable agriculture and food systems, College of Arts and Letters alumnus Anthony Hatinger is putting his diverse interests and passion for food justice to work for the common good. Cofounder of Detroit Ento, a sustainable protein startup featured in National Geographic, he’s working to source locally grown insects to create food products that provide nutrition for a growing population.
WE HAVE YOUR BACK

Students are part of the fabric of MSU. You’ll find support programs that help students before they arrive on campus and ensure success before and after graduation.

A NATIONAL LEADER IN ENTREPRENEURSHIP
The Princeton Review ranked MSU in the top 15 on its list of top 50 undergraduate entrepreneurship programs in the nation in 2021, cementing MSU’s position as an entrepreneurial hub and a leading institution for innovation.

JORDYN CASTOR, ’15
MSU alumna and Apple engineer Jordyn Castor is on a mission to develop accessible software for fellow persons with visual impairments. During her time at MSU, Castor was unstoppable, thanks in part to support from MSU’s Resource Center for Persons with Disabilities, which provided the latest assistive technology as well as Braille textbooks. She earned a scholarship for a competitive internship on Wall Street and later interned at Apple, where she now works full time to bring meaningful digital experiences to all.

MICHIGAN, AT THE HEART OF IT ALL

We understand the importance of a great location. And Michigan has many—from Great Lakes shorelines to big city skylines. And in the heart of lower mid-Michigan, you’ll find MSU located in East Lansing, a globally-minded community that hums with activity and culture. Minutes from the capital city of Lansing, MSU is a car, bus, or train ride from other Michigan jewels like Detroit and Grand Rapids, and a few hours from Chicago.
Michigan is known for its photo-worthy natural beauty and activities for all seasons, pictured here in images taken by our community. Gather up some friends and find a place that inspires you, from sand dunes to ski slopes to the many bodies of water found throughout the Mitten State.

HOW TO APPLY

1. Applications for admission are available at admissions.msu.edu/apply as well as through the Coalition Application and Common Application. MSU has no preference for one type of application over another, but it’s important that you submit only one per admissions cycle.

2. Have your official transcripts sent to MSU.

3. Have your ACT or SAT score sent to MSU by the testing agency. MSU’s ACT code is 2032; the SAT code is 1465.

NOTE: Freshman applicants for fall 2022 will have the option to apply without a test score.

SCHOLARSHIPS AND AID

Merit-based scholarships
All admitted students are automatically considered for scholarships. Scholarship selection criteria vary, and students can search all MSU scholarships through admissions.msu.edu/merit

Students should apply by November 1 for maximum scholarship consideration, although awarding continues until mid-April.

Need-based aid
It is challenging for many families to pay full educational costs from current income or savings. If you require financial assistance, your first step is to submit the Free Application for Federal Student Aid (FAFSA) online as soon as possible after October 1 of the year before you plan to enroll.
